WOMEN IN TROUBLE.

The Approach of Motherhood is the Occasion of Lic . Anxiety to All. Every wom in reads the ordeal through which she ust pass in becoming a mother. The pain and suffering which is in store ic her is a source of constant anxiety, Tear and dread, to say nothing of the danger which the coming incident entails. The joyous anticipations with which she looks forward to baby's coming gives way to an indescribable dread of the ordeal when she fully realizes the critical and trying event which will soon approach and

have to be endured. Women should hail with delight a remedy which insures to them inmunity from the pain, suffering and danger incidental to child bearing. Such a remedy is now offered, and women need not fear longer the hour of childbirth. "Mother's Friend" is a childbirth. "Mother's Friend"—is a scientific liniment—and if used before confinement, gently and surely prepares the body for the great requirements and changes it is undergoing, insures safety to both mother and child, and woman who has used it. What woman is not interested in "Mother's Friend?" This wonderful

less value proven by the experience of thousands of happy mothers who have used it during the most critical period of woman's life-the approach and culmination of motherhood. and culmination of motherhood.

It has won their everlasting praise, for it gave them help and hope in their most trying hour and when most needed. Every woman may some day need "Mother's Friend." The little book, "Before Baby is Born," telling all about it, and when it should be used, will prove of great interest and benefit to all expectant mothers, and will be sent free to any address upon application to the Bradfield Regulator Company, Atlanta, Gs.

GERSTLE'S Female Panacea Cures All Diseases of Women.

MANY women are under the impression that the diseases peculiar to their sex are natural and incurable because so many suffer constantly from them. This is a mistake. Few women are so badly diseased that they cannot be cured. It is true, that had they taken a remedy that was efficient when the first symptoms of disease appeared, a more rapid cure would have been the result. No woman should neglect herself. When the monthly period becomes too frequent, painful, profuse, obstructed or irregularin any way, or if she suffers from falling of the womb, whites, or any other female trouble, she should at once resort to the use of

LIMESTONE COLLEGE,

This institution, famous in the history of education in South Carolina, has ecently been thoroughly reorganized and now, with a large and able Faculty, is prepared to do college work of the very highest grade. Nearly twenty thousand dollars have been appropriated for improvements. A splendid new building is being erected which will cautain a large Auditorium, a Library, a Reading-Room, a Museum of Natural Science, a beautiful hall for the Literary Reading-Room, a Museus of Natural Science, a beautiful hall for the Literary Society, and some needing offices. The building will be furnished with new heating apparatus throughout, all the rooms will be supplied with new furniture, new pianos will be purchased, new physical, chemical and mineralogical laboratories will be equipped—in short everything that is necessary in the work of a first-class woman's college will be provided. The site is unequaled in South Carolina for beauty and for healthfulness. Limestone College makes the appeal to the nearly strictly on its own marks. its appeal to the people strictly on its own merits. Literary, Scientific and Commercial Courses. The regular college degrees are given by the authority of the State of South Carolina. An especially fine Course in Pedagogy is offered to those desiring to become teachers. There are three departments, the

Professor of Music. For further information address the President.
